Dear Robert,

Richter10.2 Media Group created and implemented a Web PR/Marketing campaign for e.Republic, giving us the tools and capability of reaching a much greater audience. Your expert knowledge in the area of social and new media, attention to our company's specific needs and speed of execution of the campaign, as well as timely maintenance, was most impressive!

I highly recommend your services to others wanting to increase their visibility and outreach to prospective clients.

Sincerely yours,
